BROOKSIDE LLC, DELTA TOWNSHIP, EATON COUNTY (Permit Application Number 07-23-0007-P). The Land and Water Management Division has completed review of modified plans dated March 18, 2008, and is proposing to issue a permit for placement of approximately 4,900 cubic yards of material in 0.32 acre of wetland, and placement of approximately 18,709 cubic yards of material within the 100-year floodplain of Carrier Creek. In addition, the modified plans propose to provide 18,709 cubic yards of compensating floodplain cut and to construct 0.53 acre of mitigation wetland with an associated conservation easement. The stated purpose of the activity is for commercial development. A temporary dewatering trench will be constructed between the pond/borrow pit and Carrier Creek, including the placement of 120 cubic yards of rock riprap within the channel and as erosion protection at storm water outfalls. To view a copy of the proposed settlement and the draft permit, on the Web, go to www.michigan.gov/deqlwmd. Announcements

LAND AND WATER MANAGEMENT DIVISION

DEADLINE FOR PUBLIC COMMENT REGARDING PROPOSED TEMPORARY GENERAL PERMIT FOR DESIGNATED MINOR ACTIVITIES AUTHORIZED BY THE U.S. ARMY CORP OF ENGINEERS IN LAKES AND STREAMS. Pursuant to Part 301, Inland Lakes and Streams; and Part 303, Wetlands Protection; of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the MDEQ's Land and Water Management Division is proposing to issue a Temporary General Permit (GP) to authorize certain minor activities in inland lakes and streams and Great Lakes connecting channels, where the activity is authorized by the U.S. Army Corp of Engineers (USACE). Parts 301 and 303 authorize the issuance of GPs for categories of activities that are similar in nature, will cause only minimal adverse environmental effects when performed separately, and will have only minimal cumulative adverse effect on the environment. The MDEQ and the USACE have distinct but parallel responsibilities for regulation of dredge and fill activities in certain waters in Michigan under respective state and federal laws. The MDEQ is proposing to limit staff review of specified categories of these regulated activities on a temporary basis, where environmental review and authorization can be provided by the USACE. If this GP is approved, permit applications that meet specified conditions and criteria in the waters defined in the GP will typically receive automatic approval without significant review by MDEQ staff contingent upon approval by the USACE. This measure will allow remaining staff time to be used to address other regulatory requirements and is made necessary by reductions in the Land and Water Management Division budget. When the Temporary GP expires after a two year period, the impact of this action on the environment and on the regulated public will be evaluated. The detailed draft GP can be found at www.michigan.gov/degainlandlakes, or may be requested from the address given below. Written comments should be submitted directly to: Michigan Department of Environmental Quality, Land and Water Management Division, P.O. Box 30458, Lansing, MI 48909-7958 to the attention of Peg Bostwick. All comments must be received by Wednesday, May 28, 2008. Information Contact: **Peg Bostwick**, Land and Water Management Division, 517-335-3470.

LAND AND WATER MANAGEMENT DIVISION

DEADLINE FOR PUBLIC COMMENT REGARDING FEDERAL CONSISTENCY REVIEW OF THE ESTABLISHMENT OF UNITED STATES COAST GUARD ROUTINE AND FREQUENT MARITIME REGULATIONS. The United States Coast Guard has submitted an application to the Michigan Department of Environmental Quality to establish frequent and routine activities which are expected to have minimal impacts for regulatory purposes. The Michigan Coastal Management Program will be reviewing the proposed list for consistency with Michigan's Coastal Management Program. Written comments are welcome and should be postmarked or submitted by June 16, 2008, to: Chris Antieau, Great Lakes Shorelands Unit, Land and Water Management Division, P.O. Box 30458, Lansing, Michigan 48909. Information Contact: **Chris Antieau**, Land and Water Management Division, 517-373-3894.

MONTHLY AIR PERMIT APPLICATION WORKSHOP FOR FIRST-TIME APPLICANTS, CONSTITUTION HALL, LANSING, MICHIGAN. For most first-time applicants, completing the Permit to Install application is a daunting task. However, submitting a complete and timely application can be more manageable if you know what's expected. The Michigan Department of Environmental Quality is offering this workshop designed to give information on how to submit a complete permit application. Since this workshop is geared to first-time applicants, a significant portion of the session is devoted to your specific application. Air Quality Division permit engineers will be available to discuss your permit application with you one-on-one. To take full advantage of this time with the permit engineer, it is recommended you bring detailed information about your project with you to the session. This training is designed for first-time air permit applicants who need help completing their permit application; however, those who have applied before and need a refresher are welcome to attend as well. Online registration is available on the Web at www.michigan.gov/degworkshops, click on "Upcoming DEQ Workshops". Registration Fee: \$25,

which includes parking in the Ellis Parking Lot on the east side of Constitution Hall and training manual.
